## HOW TO CREATE MOVIE DRIVE-IN:

### STEP 1

Get creative and make your own movie tickets with your kids. You can use whatever you have handy - cardboard, plain paper or scrap paper.

### STEP 2

Decide what you'd like to use for currency - anything will work, as long as the kids can count it and learn some maths while they are at it! Coins if you have a coin jar, gold coin chocolates, pebbles, monopoly money, even leaves will work!

### STEP 3

Decide what snacks are available for the movie. The Kearns opted for popcorn as they love to snack on this when at the cinemas or drive-in but anything you have at home that the kids love to snack on will be a winner!

## STEP 4

Start labelling and pricing all of your items for sale  
ie. movie tickets, snacks and drinks.

## STEP 5

Set up a table in the entrance of your living room, or whatever room you are hosting the drive-in movie, that can have a fake register set up (if you don't have one, use a small box or tray for the same affect) as well as all of the tickets, drinks and snacks for purchase.

## STEP 6

Pick a family friendly movie so you can all enjoy the experience together and have the TV ready to go for when they roll in!

## STEP 7

Now the fun bit! Get the kids on their toy cars, scooters bikes, or whatever you have at home that they can "drive through" with. You can use this part of the fun experience to teach them a quick lesson in maths to pay for all of their items with the correct amount of currency and giving them change.

## STEP 8

Time to sit down as a family, enjoy the movie and your snacks!
